BELL ATLANTIC - MAINE
Request for Approval of
Interconnection Agreement with
Hyperion Communications of Maine,
Inc.

ORDER APPROVING
INTERCONNECTION
AGREEMENT

WELCH, Chairman; NUGENT and DIAMOND, Commissioners

In this Order, we approve an interconnection agreement between New England Telephone and Telegraph Company d/b/a Bell Atlantic - Maine (Bell Atlantic) (f/k/a NYNEX) and Hyperion Communications of Maine, Inc. (Hyperion), pursuant to section 252 of the Telecommunications Act of 1996.

On February 18, 1999, Bell Atlantic filed a negotiated interconnection agreement with Hyperion, pursuant to 47 U.S.C. § 252 enacted by the Telecommunications Act of 1996. Interconnection agreements provide for interconnection between an incumbent local exchange carrier (ILEC) and another telecommunications carrier, including a competitive local exchange carrier (CLEC). An interconnection agreement may allow a telecommunications carrier to purchase unbundled network elements, or local services at a discounted wholesale rate (the discount reflecting avoided cost), or both, from an ILEC (or CLEC).

The agreement incorporates terms and conditions of a separate interconnection agreement between NYNEX and New England Fiber Communications, L.L.C., approved by the Commission on August 26, 1997 in Docket No. 97-502 (the "Separate Agreement," attached as Appendix 1 to the agreement filed in this proceeding). Bell Atlantic and Hyperion agreed to replace in its entirety one schedule in the Separate

Agreement: Schedule 4.0, titled "Network Interconnection Schedule." That Schedule is apparently intended to set activation dates on which traffic between Bell Atlantic and Hyperion will occur to implement the agreement. We note that the schedule contains a note that further information is to be provided by the parties at a later date. When the parties agree on a time frame to implement the filed agreement, they should file a completed Schedule 4.0 as an amendment to the agreement we approve today.

Hyperion will pay to Bell Atlantic the interconnection prices contained in the voluntary agreement that was reached pursuant to arms-length negotiations between the parties. The pricing standards contained in 47 U.S.C. § 252(d) apply only to arbitration proceedings under section 252(b) and not to negotiated agreements under section 252(a). Bell Atlantic does not represent that the prices contained in the Agreement are consistent with the section 252(d) pricing standards or with any other state or federal policy.

Section 252(e)(2) states that a state commission may reject a negotiated agreement only if it finds that "the agreement (or portion thereof) discriminates against a telecommunications carrier not a party to the agreement" or if "the implementation of such agreement or portion is not consistent with the public interest, convenience and necessity." We received no comments by the comment deadline set in a February 19, 1999 Notice of Agreement and Opportunity to Comment.

We cannot make either of the findings set for in section 252(e)(2) for rejection, and we therefore approve the agreement. We qualify that approval in two respects, however, and reserve findings on future potential issues.

First, we reserve judgment on whether the rates contained in the agreement are reasonable from the perspective of Bell Atlantic's retail ratepayers. Bell Atlantic is presently under an alternative form of regulation (AFOR) ordered by the Commission in Docket No. 94-123. The AFOR began in December, 1995. Under the AFOR, Bell

Atlantic bears the risk of lost revenues resulting from rates that are too low. However, at the end of the initial 5-year period of the AFOR, and in 2005 if the present AFOR is renewed, we may have occasion to review Bell Atlantic's earnings. We do not resolve whether Bell Atlantic is receiving reasonable compensation from any CLECs that may avail themselves of the rates provided to Hyperion pursuant to 47 U.S.C. § 252(i) and, if they are not reasonable, whether we should impute revenues to Bell Atlantic.

Second, section 271(c) of the Act, 47 U.S.C. § 271(c), requires that the Bell Operating Companies (BOCs) meet certain requirements before they are allowed to provide interLATA service (the so-called "competitive checklist"). Under section 271(d)(3), the Federal Communications Commission (FCC) must determine whether the BOC has met the competitive checklist before granting the BOC authority to provide interLATA service within its region. Prior to making that determination, the FCC must consult with state commissions to verify the compliance of the BOC with the checklist. Our approval of this Agreement should not be construed as a finding that Bell Atlantic has met those requirements.

Separately, in Docket No. 99-102, Hyperion has petitioned for a finding of public convenience and necessity to provide local exchange telecommunications services in Maine. We will consider that petition separately.

The agreement filed by Bell Atlantic provides for interconnection between Hyperion and Bell Atlantic's network in Maine. If Hyperion seeks to interconnect with networks maintained by independent local exchange carriers in Maine, it must seek a termination, suspension, or modification of the exemption contained in 47 U.S.C. 251(f)(1)(A).

Accordingly, we
